About Us

Since 2003, Majestic Security has helped victims of identity theft recover fully from this devastating crime, and continue to protect millions of Americans from this growing problem. Working with individuals as well as some of Americas largest companies, we offer ID theft protection and restoration services at a very affordable cost.

We have a 100% track record of restoring victims back to pre-theft status.

We have partnered with Merchants Information Solutions, who for the past 20 years have offered Americans the highest quality, best in class Identity Theft solutions available today.

Identity Theft Solutions For Small to Medium-Sized Businesses

SmartIDentity™
FOR BUSINESS

NORSE Cyber Intelligence

Real-time monitoring of internet and darknet...

Live Threat Map

Norse delivers continuously-updated, unique Internet and darknet attack intelligence that helps organizations block attacks that other systems miss. The Norse live attack map is a visualization of a tiny portion (<1%) of the data processed by the Norse DarkMatter™ platform every day.

For SMBs (small and medium sized businesses), a data breach is a death sentence

2 out of 3
small businesses
attacked go
out of business
within **6**
months

CLOSED

Most business owners ignore the threat of a data breach

One of the
top 3 SMB
threats today

83% lack a formal
cyber security plan

But the hackers aren't ignoring SMBs

They are especially ripe targets

75% of breaches
are to businesses of
100 employees or fewer

For an SMB, the average breach costs are **devastating**

The direct costs of \$200k
is only the beginning

But a solution exists:

Breach protection for the business &
victims

4 key pillars of SmartIDentityTM FOR BUSINESS

data breach
prevention
planning

1

proactive
monitoring

2

data
breach
response
planning

3

data
breach
victim
recovery

4

Employee Benefit – ID Protection - Optional

Your employees can be covered too

All employees **and** their families can be covered

limits lost revenue

Customers
understand a
mistake

Timely and appropriate response
can strengthen loyalty

Poor response can easily
erode a lifetime of goodwill

limits liability

The best defense is a good

offense

Having a proactive breach program in place and providing a timely response... **dramatically** reduces regulatory challenge and class action potential

A data breach is not a matter of if,
but when.

A data breach is not a matter of if,
but when.

When it happens, which group do you want to be in?

SmartIDentityTM
FOR BUSINESS

Protection from a critical business risk

is there to keep you in business,
whatever may come your way
